Efficiency in cleaning

Efficient cleaning procedures will save you time, energy and chemical consumption. We offer you high efficient products tailored to your professional cleaning needs.

Efficient machines

Obtain high cleaning results with ease. With over 500 machines in sales scope we can offer you machines that will suit your situation best.

Efficient chemicals

For general or daily cleaning. For machine or hand cleaning. For cleaning with caring effect.

Efficient cleaning tools

Correctly equipped trolley is the cleaner's workspace and defines his efficiency in cleaning and maximizes productiveness.

Efficient disinfection

To disinfect fungi, yeast, viruses and bacteria. Microbiological and dermatological tested and EU certified.

Ecology

We help you define ecological cleaning guidelines to care of our planet.

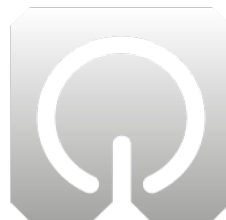

Ecological cleaning plans

Reduce chemical consumption and optimize cleaning procedures for maximum efficiency yet ecological.

Reduce water and chemical consumption

Using machines with Aqua control system and 3SD you will save planet's water and reduce the consumption of chemicals

Recycled materials

We suggest you to use products made from recycled materials to reduce environmental impact.

Green directive

Following local regulation, we offer you environmentally friendly products.

As a leading provider of effective cleaning solution in our region, we focus our attention to ecological cleaning as well as we act environment friendly.

Our chemical production is ecological friendly:

- with effective energy use
- with minimizing waste
- using recycled materials
- with own recycling system

Bent products are designed for maximum performance to reduce chemical consumption. Choose concentrated chemicals to reduce transport exhausts and save storage space.

We run on energy from renewable sources

Development

Bent production line

For more than 40 years we are in pursuit of high quality and effective cleaning solutions. For you, we test and choose among the various products to support you with effective cleaning solutions. Bent experts inform you about efficient and ecologic cleaning practices.

To support you even better we build our chemical production line to fulfill your needs in specialized products and to produce chemicals according to your formulation with your private label.

The automatic production line is capable of producing and filling from 100ml up to 10L packaging.
